Technical Information

Panel Configuration

CO3 LH – The Left hand panel and Centre panel sit side by side in the front of the twin track frame, the Right hand panel sits in the back track. The Centre panel can then slide over from the left to right, in front of the Right hand panel, giving direct access to the centre primary window. The Left panel can then slide to the centre. The Right hand panel can slide behind the Centre panel.

Co3 RH – The Right hand panel and Centre panel sit side by side in the front of the twin track frame, the Left panel sits in the back track, the Centre can then slide over from Right to Left, in front of the Left hand panel, giving direct access to the centre primary window. The Right panel can then slide to the centre, the Left panel can slide behind the Centre panel.

Panels removable

Yes

Size

Min 550w x 250h, 4mm glass max 3600 x 1800, 6/6.4mm glass max 3600mm x 2000mm (units over 1800mm in height will default to 6mm glass on a 50 x 21 sub-frame)

Glass

Standard glass 4mm tough - Max glass thickness 6.8 laminate

Thermal Performance: Variable

Standard 2.5 w/m²K / *Low-E 1.8 w/m²K

Acoustic Performance: Variable

Mid-Range Spec* 45dB / High spec 52dB
*Certificated

- Trickle vents / acoustic trickle vents
- RAL colour
- Fly screen
- Timber sizes other than standard

Standard Frame Diagram - CO3 RH Version

Panel orientations reversed for CO3 LH version

All units can be supplied in a Face or Reveal Fix drilled orientation.

Please note: With Horizontal Sliders, if Reveal Fix drilling through a standard frame (i.e. track drilled, as per image below) the screw head may interfere slightly with the travel of the sliding pane, as the roller bump over the screws.

Other Frame options available on Request.

Fixing Options

Images are for representation purposes only and may differ from some product options.

XL Frame Diagram

Classic XL Frame Depth Options

50 x 21 62 x 21 70 x 21 80 x 21 (other frames available on request)

The XL Frames give more stable installation when in a standalone reveal fix orientation. Smoother running of horizontal sliding panels. No visible screw heads in the aluminium tracks it will also increase the air-gap in a face fix orientation.

All units can be supplied in a Face or Reveal Fix drilled orientation.

Fixing Options
